| ☐ Child Welfare Programs | |

Policy/rule title:	Changes to Extended Waiver Eligibility (EWE) process		
Policy/rule number(s):	OAR 411-015-0030	Release number:	
Effective date:	Immediately	Expiration date:	
References:			
Web address:	https://www.oregon.gov/odhs/rules-policy/apdrules/411-015.pdf		

Discussion/interpretation:

Updates to this policy are in red.

Extended Waiver Eligibility (EWE) services are currently set up in six-month increments which requires a six-month review after the initial start date. At the six-month review period, the consumer and case manager (CM) update and sign the EWE goals/risk mitigation form. The form is submitted to Central Office (CO) for review and

services are set up for another six months or for the remainder of the assessment period.

There are many administrative tasks involved with the six-month review process that are a duplication of work for CMs, CO staff, and consumers in comparison to the initial request for EWE services and at each reassessment and reapplication for EWE services. To streamline the process, the following changes are being implemented effective immediately.

Implementation/transition instructions:

Case managers (CMs) are no longer required to conduct a face-to-face visit with the consumer to complete an updated EWE form and obtain signatures and submit to CO every six-months. At the initial EWE request, at reassessment and EWE reapplication period, the EWE goals/risk mitigation form must be completed and signed by the consumer and CM.

In lieu of the six-month EWE services segments, CO will set up the EWE services record in SELG for 12-months or through the end of the assessment period, whichever is less.

CM responsibilities for managing EWE services cases:

- Complete direct contacts with the consumer via telephone, face-to-face or email. The frequency of direct contacts should be no less frequent than quarterly unless the EWE plan indicates the need for monthly direct contact with the consumer. Contacts should be narrated in Oregon ACCESS (OA) and include information on the consumer's attempts to achieve the goals and mitigating risks/barriers to independent living as agreed to on the EWE form.
- At the six-month direct contact, label the narrative as: **EWE 6-MONTH REVIEW CONTACT**. Case managers (CMs) should review the history of the consumer's attempts to transition from long-term services and supports (LTSS) to ensure the consumer is compliant per EWE rules ([OAR 411-015-0030\(4\)](#)). **The CM must narrate if the consumer remains eligible for the EWE program.** CMs may request a consultation with the EWE policy analyst if necessary.
- Set reminders for **quarterly (monthly if indicated on the EWE form)** direct contacts, **6-month direct contact and documentation in OA**, and for the annual reassessment for each EWE consumer. **NOTE:** EWE consumers do not show on any OA lists or reports.
- Check ONE alerts frequently to ensure the EWE consumer's medical benefits are active. A consumer receiving EWE services must be OSIP-M eligible.
- Whenever a change occurs that affects EWE eligibility, such as (but not limited to) an assessment outcome of SPL 1-13, consumer passes away, consumer has moved out of state, a change in care environment, finds independent living or

transitions from LTSS, is no longer Medicaid eligible, is no longer service eligible, etc., that change must be reported to APD.EWE.Request@odhsoha.oregon.gov immediately.

- If an EWE consumer fails to comply with the goals and risk mitigation as agreed to on the EWE form, the CM must send a pending notice (DHS 4234) to the consumer requesting proof of compliance before sending a closure notice for EWE services. CMs may contact the EWE policy analyst for consultation before sending a closing notice to the consumer.
- When an initial EWE referral and renewal is sent to CO for review, the CM should wait to send the SPAN until the EWE eligibility decision is provided.
- **ALWAYS** ensure the EWE form is signed by the consumer/representative and CM as verbal signatures are not permitted. The signature is acknowledgement that the consumer agrees to make attempts to reach their goals and mitigate risks to independent living to transition from LTSS.

Training/communication plan: Provide technical assistance and consultation as needed.

Local/branch action required: Review the CM responsibilities as stated in this transmittal and EWE rules for consumer eligibility and compliance.

Central office action required: Update current consumer EWE services records to reflect 12-months of EWE services or update the services record through the end of the consumer's current assessment period. Implement 12-month service records for new EWE consumers and renewing EWE consumers. OAR 411-015-0030 will be updated with necessary changes. The EWE planning form will eventually become available on DocuSign.

Field/stakeholder review: ☒ Yes ☐ No

If yes, reviewed by: Ops and internal review
