Policy/rule title:	Emergency Response Management (ERM) system use		
Policy/rule number(s):		Release number:	
Effective date:		Expiration date:	
References:			
Web address:			

Discussion/interpretation:

The Emergency Response Management System is the official system of record for all emergency situations involving the Office of Aging and People with Disabilities (APD) in-home consumers and its licensed Long-Term Care (LTC) facilities and Adult Foster Homes (AFHs).

This policy establishes expectations for using the Emergency Response Management System (ERM). Effective immediately, all APD, Area Agency on Aging (AAA) Type B,

and Safety Oversight and Quality staff must use ERM when supporting LTSS in-home consumers, LTC facilities and AFHs during disasters and emergencies.

ERM users doing outreach to In-Home Consumers, Adult Foster Homes and Long-Term Care facilities shall follow guidance in training materials, Quick Reference Guides (QRGs) and knowledge articles (uploaded in ERM) and as directed by the APD Safety, Emergency Response Team.

At a minimum, ERM users will need to be able to complete the:

- Rapid assessment to assessment immediate needs (when appropriate),
- Log a call to document the contact,
- Create a task to document assistance being provided or requested and
- Create an emergency facility, which could include a private residence, to identify where consumers and residents evacuate to.

This will enable staff to conduct appropriate follow-up, ensuring the safety of consumers and residents, as well as the continuation of services.

Implementation/transition instructions:

Local office leadership will need to designate staff to use ERM by immediately if not already done and notify CALMS support using the CALMS access request form. New users will need to attend a new user training before using the ERM. Training will be provided by APD Central Office virtually, either live or recorded.

The APD Emergency Response Team consist of designated ODHS staff with additional ERM training to analyze events, map, export data and liaison with local offices and agency partners such as ODHS Office of Resilience and Emergency Management (OREM), Oregon Health Authority and Local Emergency Services.

The APD Emergency Response Team will send communication regarding emergency events from a centralized e-mail, DHS.APD.ERM@odhsoha.oregon.gov. Please send all communication through this e-mail box to allow for the entire APD Safety, Emergency Response Team to have visibility.

ERM users shall account for their time spent doing response, outreach or risk mitigation during emergency events. Please use the link below to account for your time. This will help us more clearly identify the amount of time staff are spending supporting consumers and residents during emergency events. This will also allow us to request reimbursement from FEMA when state or federal disasters are declared and to support the need for resources to assist with emergency event response.

Training/communication plan: Virtual Training dates will be identified and sent out to local office designated ERM users. Technical assistance will be provided to ERM users as needed.

Local/branch action required: Identify ERM user(s). Begin/continue the use of ERM when providing support to in-home consumers, long-term care facilities, and adult foster homes during emergencies and disasters.

Central office action required: Respond to questions and support users as needed, provide ongoing training and user guides for reference.

Field/stakeholder review: ☒ Yes ☐ No

If yes, reviewed by: APD Policy & Operations Review

Filing instructions:

If you have any questions about this policy, contact:

Contact(s): Nicki Holmes, APD Safety Manager for In-Home Consumer and Adult Foster Home related questions. Cassie Studer, for Long-Term Care Facility related questions.
