Discussion/interpretation

Updated August 14, 2026, to remove language regarding notifying the reporter from section 4.

Pilot project to explore centralized screening of Adult Protective Services (APS) incoming calls. Reporters calling to report abuse through SAFELINE are prompted to

provide their zip code so the call can be sent to the appropriate local office.

When a zip code is not provided, the call will be sent to the Central Office APS (COAPS) screeners.

1. COAPS screeners will receive SAFELINE abuse report calls.
 - a. Based on information received, the COAPS screener will conduct the intake, make the screening decisions, and as appropriate, assign the intake to the responding Local Office (LO).
 - b. COAPS screener must screen reports as described in OAR 411-020-0060 including but not limited to evaluating information for APS jurisdiction, eligibility requirements and determining if the reported concern meets the definition of abuse or self-neglect or qualifies for APS Risk Management.
2. COAPS screeners must enter the intake information in Central Abuse Management (CAM) following APS rules, policies and procedures.
3. COAPS screeners must provide the reporter with an intake number for future reference and explain how to contact APS.
4. After making the screening decision, COAPS screeners will notify the Local Office (LO) when the intake has been assigned to them. In addition, inform the LO of any actions taken by the COAPS screener.
 - a. For abuse investigations, once sent to the LO, the LO must assign the APS Specialist and finish intake notifications and referrals.
 - b. For APS Risk Management cases that are assigned at intake, the LO will

assign to an APS Specialist and finish intake notifications and referrals.

- c. When the intake report is screened out as non-abuse, and no further action is required, the COAPS screener closes the Intake. The COAPS screener must finish intake notifications and referrals.
- d. If screened out, but further action is needed, COAPS may refer the intake to the LO to complete. This finishing of an intake may include required intake notifications and referrals.

- 5. Because this is a pilot, some Central Office SAFELINE calls may be directed to a LO to conduct the Intake and make screening decisions

Implementation/transition instructions

This policy transmittal will provide a framework for a pilot project that will test the effectiveness of centralized screening for reports of abuse or self-neglect.

Training/communication plan

The policy transmittal will be posted at the [APS Staff Tools](#) website, [APD's Transmittals](#) website, and the CAM Knowledge tab with other APS policy transmittals. Communication and discussion regarding this policy transmittal will occur during APS supervisor meetings, APS Training, and other venues as needed. Requests for technical assistance on applying this policy transmittal should be sent to the Central APS Unit at aps.techassistance@odhsoha.oregon.gov.

Local/branch action required

Please discuss these changes with staff during huddles and staff meetings. Ensure local APS workers awareness of the policy transmittal and where it is posted on the [APD Transmittals Public Facing](#) website.

Central office action required

Respond to inquiries regarding this policy transmittal as needed.

Reviewed by impacted parties? ☒ Yes ☐ No

If yes, reviewed by: APD Operations Committee, APS Supervisors, APS Policy Advisory Committee, Central APS Unit, Safety Oversight & Quality
