This Policy Transmittal (PT) establishes a standard process for local office staff to respond to Homecare Worker (HCW) payment questions and sets expectations for prior authorization (PA) of HCW hours and services. It explains when services must be authorized, what documentation is required, and what staff must review

when a payment issue is reported. This process supports timely resolution of payment discrepancies and consistent review of an individual's eligibility, service authorization, and payment information.

Implementation/transition instructions

1. Prior authorization of hours

- a. A case manager (CM) must authorize services before an HCW works the hours.
- b. An HCW is authorized only when both of the following are in place:
 - i. Authorization in the Oregon Provider Time Capture Direct Care Innovations (OR PTC DCI) system or written notice of approved hours and services; and
 - ii. A CM sent the HCW a 598 Task List.
- c. Use form SDS 4105 whenever an HCW starts work for an individual or when the HCWs hours or services change.
- d. Authorization must be in writing. Verbal authorization is **not** allowed.
- e. CMs must provide the Task List to an HCW within seven days after the individual reports hiring an HCW.
- f. Do not pay an HCW for hours worked before PA is in place. Do not backdate pay. CM should inform an HCW that they are not authorized and should not work until the PA is completed.
- g. Hours cannot be authorized if the individual was not eligible for services. Confirm eligibility before authorizing services and ensure the HCW knows they are not authorized to work.
- h. Individuals must report changes in service needs within two business days.

- i. For emergency or unexpected situations when an HCW must provide critical care to protect the individual's health or safety, see [OAR 411-030-0070\(7\)](#) for exceptions.
- j. When timing is critical, email may serve as written prior authorization.
- k. Send questions about back pay cases to Aging and People with Disabilities (APD) Medicaid Policy at APD.MedicaidPolicy@odhsoha.oregon.gov.

2. Timely and accurate pay

- a. If an HCW believes payment was late or incorrect, the HCW should contact the local office right away.
- b. To request a late or partial payment penalty fee, the HCW must submit the Oregon Home Care Commission (OHCC) late/partial payment request form within 60 calendar days after the pay processing date for the late or partial payment. [Penalty form](#)
- c. If the HCW does not submit the request within 60 calendar days, the HCW is not eligible for a late or partial payment penalty fee. The local office should direct the HCW to complete the form and eligibility for late or partial penalty fees are determined by OHCC.
- d. When an HCW notifies the local office of a payment issue, the local office must provide the link. [Penalty form](#)

3. Pay processing

Staff must review the items below and document the review in the individuals case narration in Oregon ACCESS (OA).

Eligibility and coding verification

- a. Confirm that ONE shows the correct approved and authorized medical and service Types of Assistance (TOAs) for the period at issue. See the [Service Categories and TOAs EG](#).

- b. For in-home cases, the benefit line in the service plan may be backdated to match eligibility and TOA. The effective date should reflect when prior authorization was established and does not need to match the benefit line.
- c. Confirm that any exception hours are approved in the current service plan and coded by Central Office, if needed.
- d. For financial eligibility:
 - i. check alerts in ONE;
 - ii. verify that ONE shows active approved and authorized service TOAs for the time frame of the SELG record in the Mainframe;
 - iii. Oregon Project Independence-Medicaid (OPI-M) does not require Oregon Health Plan Plus (OHP Plus) medical eligibility;
 - iv. State Plan Personal Care (SPPC) requires an active medical TOA.

Service authorization and plan verification

- e. Confirm that the case in ONE is pending only for service eligibility and not for other medical items. See OAR 461-180-0040 for effective dates and service start dates.
- f. Review the Case Manager (CM) Alert Log daily.
- g. See the [Case Manager Homepage Overview](#) and [Case Manager Alert Descriptions](#) resources for more information about alerts in ONE.
- h. Confirm that OA shows an approved service benefit and service plan.
- i. Confirm that the service benefit type in OA matches the medical or service benefit in ONE.
 - i. For the approved service benefit dates in OA, confirm that the benefit is compatible with the approved and authorized medical and/or service TOAs in ONE. Example: MSERV = KPS; NMAGISERV and LTCSERV = APD.

- ii. SPPC does not require a service TOA, but the OA benefit should be BPA or BPO.
- j. Confirm that OR PTC DCI shows an authorization and that the authorized hours match the service plan.
- k. To create an authorization in OR PTC DCI, staff must first create a voucher in the mainframe. Before the authorization appears in OR PTC DCI, the individual and HCW must have profiles, funding accounts, and service accounts in the system.
- l. The PTC support team creates those profiles, funding accounts, and service accounts through its daily process.
- m. If the individual and HCW are actively linked in OR PTC DCI, the mainframe sends authorization data to OR PTC DCI in real time after the voucher is created.
- n. The voucher specialist starts the authorization process by entering the authorization in the mainframe using the APD 546N.

Payment processing verification

- o. Confirm that a voucher was created in the mainframe.
- p. Verify that all punches were submitted and approved in OR PTC DCI.
- q. Confirm that the HCW submitted claims correctly and within required timelines.
- r. Review the STIQ screen for any individual or HCW eligibility errors. See the [Mainframe STIQ Errors – Prevent and Resolve quick reference guide](#).
- s. Additional resources are available on the [OR PTC DCI Troubleshooting guide](#), [HCW Authorization PowerPoint](#), and the [Consumer-Employed Provider Manual](#).

Local/branch action required

Please follow the transmittal and escalate errors to Medicaid Policy when needed.

Central office action required

Available for staffing.
